

RELEASE ME

Lyrics by Mitchell Charles

Trapped in a cage with the door wide open
I long to soar through the sky
Born with wings, but my will's broken
To spread them wide and to fly

Release me
Release me
Release me
From your spell

I keep breaking my heart in hope that it opens
Holding on, not letting go
I wait for a sign, clear yet unspoken
The lesson ripe to unfold

Entice me
Incite me
Beguile me
With your love

I'm gonna sing like a bird
Don't care who may hear
Gonna open my heart
Transcend my fear

A candle smolders deep in my heart
Heat rises from my core
A fire awakens, releasing a spark
Until the flames erupt with a roar

Release me
Release me
Release me
From your spell
From your spell
From your spell
From your spell
