

Choose Love

Lyrics by Mitchell Charles

What you seek
Is seeking you
What I seek
Is seeking me
Our paths converge
Sheer destiny

Choose love
Nothing else matters
Open your heart
Until it shatters
Choose love, baby
Nothing else matters
Choose love
It'll set you free

What do you hear
When you open your ears
When you close your eyes
What do you see
Do you feel the love
Rain from above

Choose love
Nothing else matters

Open your heart, baby
Until it shatters
Choose love, baby
'cus nothing else matters
Choose love
It'll set you free

When in doubt, choose love
When you're lost, choose love
When you're broken, choose love
When you're hopeless, choose love

Choose Love
